

PROFESSIONAL SUMMARY

Backend-focused Node.js Developer with 5+ years of experience building scalable RESTful APIs and event-driven microservices for high-traffic e-commerce and B2B platforms. Specializes in performance optimization — cut API latency and infra cost by up to 60% through Redis caching and query tuning — along with PostgreSQL/MongoDB data modeling, payment gateway integrations, and AWS-based deployments. Comfortable owning services end-to-end, from architecture and CI/CD to mentoring engineers on clean code practices.

TECHNICAL SKILLS

Languages & Frameworks	JavaScript (ES6+), TypeScript, Node.js, Express.js, Angular (12+), React.js
Databases	PostgreSQL, MongoDB, MySQL, Redis
Messaging & Real-time	RabbitMQ, Kafka, WebSockets, Socket.io, SMPP Messaging
ORM	Sequelize, Mongoose, Prisma
Cloud & DevOps	AWS (Lambda, Cognito, SQS, Amplify, CloudWatch), Docker, DataDog, CI/CD
Other	Payment Gateway Integrations, Event-Driven Architecture, Worker Threads, JWT/OAuth, Jest

WORK EXPERIENCE

Senior Software Developer — Appventurez

Sep 2022 - Present

- Integrated Valor PayTech payment gateway for secure credit card capture and subscription billing.
- Implemented Redis caching across core services, cutting API response time and server costs by 60%.
- Designed and owned backend architecture for client projects, making key technical decisions on database design, API structure, and service boundaries.
- Mentored frontend and backend engineers on clean architecture and code quality standards, conducting code reviews to maintain consistency across teams.
- Collaborated directly with clients and product stakeholders to translate business requirements into scalable technical solutions.
- Set up monitoring and alerting using DataDog and AWS CloudWatch to proactively catch production issues.

Software Developer — SevenStar Websolutions

Nov 2021 - Aug 2022

- Migrated a monolith to Node.js microservices using API Gateway and RabbitMQ, improving scalability by 40%.
- Integrated Stripe for online transactions and refund management.
- Tuned MongoDB queries and added Redis caching, making APIs 55% faster.
- Set up Dockerized deployment pipelines to standardize environments across development and staging.
- Built WebSocket-based real-time notification service used across the platform.

Software Developer — Fluper

Nov 2020 - Oct 2021

- Developed REST APIs and authentication using JWT and OAuth for multi-tenant systems.
- Integrated third-party APIs including Google Maps and payment gateways.
- Wrote unit and integration tests with Jest to improve code reliability before releases.
- Worked closely with QA and frontend teams to debug and resolve production issues within SLA.

PROJECTS

E-commerce Platform for Regulated Retail — Angular, Node.js, MongoDB

- Built an e-commerce platform for a regulated retail category, handling product catalog, loyalty programs, and store availability.
- Implemented an Angular reroute strategy to minimize redundant API calls and improve performance.
- Designed the backend data model in MongoDB to support flexible product variants and location-based inventory.

RookSaan — Custom Greeting Card Platform — Angular, Node.js, MongoDB

- Built a personalized greeting card system with real-time preview so users could visualize custom designs before purchase.
- Integrated Stripe for secure payments and SendGrid for automated order confirmations, boosting checkout conversions by 40%.
- Built the order and template management APIs in Node.js, keeping response times low even with high-resolution image previews.

Raftaarr — B2B Machinery Marketplace — React.js, Node.js, PostgreSQL

- Built a marketplace connecting companies to trade used machinery, with role-based access, product listing, and bidding modules.
- Designed PostgreSQL schema for multi-tenant listings, bids, and transaction history with data integrity constraints.

EDUCATION

Bachelor of Technology, Computer Science & Engineering — ABESIT (AKTU)	2020 · 68.58%
Class 12 (CBSE) — Vidya Bharti School	2016 · 66.8%
Class 10 (CBSE) — Vidya Bharti School	2014 · 7 CGPA
